In the Roman-Irish bath, the beneficial effects of Roman bathing culture merge with Irish bathing tradition. The modern wellness ritual, which is based on ancient bathing rituals, relaxes the body, strengthens the immune system and refreshes the soul.

Erholung und Entspannungen

You should take your time for the Roman-Irish bath. One session lasts up to 3.5 hours, but is a treat for body and soul and regenerates like a few days' holiday. It gently stimulates the circulation, purifies the body and strengthens the immune system. The moist heat of the steam penetrates deep into the bronchial tubes and improves blood circulation in the respiratory tract. This is particularly beneficial in the cold season, when colds are the order of the day.

Ihr persönlicher Wellness-Tempel

The team deliberately only welcomes two guests per admission and the Roman-Irish bathing experience is organised in such a way that you will only occasionally encounter other visitors during your stay. You can enjoy a "private spa" with us - only much bigger!
